Why long term care planning is an important topic

Many people can expect to need long term care at some point in their lives. They may suffer from a disabling accident, chronic illness or be unable to complete simple activities such as dressing, bathing or moving around the house.

Receiving help for these activities can be expensive and may require the possibility of a loved one needing to provide care. Becoming a caregiver can impact their income, assets and lifestyle, just as much as it could impact the person they are caring for.

There is a big difference between caring about your loved one and caring for your loved one.

Many people use Long Term Care insurance as a way to cover future costs associated with these situations and help protect their assets and loved ones.

National Guardian Life Insurance Company (NGL) is here for you. EssentialLTC, our Long Term Care insurance option can help you prepare for life's financial journey.

When do I need long term care?

It could be any reason at any point in your life. It's any scenario where you need help with at least two activities of daily living (bathing, continence, dressing, eating, toileting and transferring) for at least 90 days or are diagnosed with a severe cognitive impairment.*

Buying Long Term Care insurance while you are healthy and younger allows for it to be more affordable. People 65 and older have a 70% chance of needing some type of long term care in their remaining years,¹ and an unfortunate diagnosis may limit you from qualifying for any coverage.

*By definition of your policy Chronically Ill means you require: substantial assistance from an individual to perform at least two (2) Activities of Daily Living due to the loss of functional capacity for a period expected to last at least 90 days; or substantial supervision when you have a severe cognitive impairment to protect you or others from threats to health and safety.

Coverage Options in Long Term Care

Creating a Long Term Care insurance plan can give you and your loved ones peace of mind that you have secured your future and the assets you worked so hard to save.

Types of long term care

You have multiple options for long term care, from home and community care services to facilities that help care for you 24 hours a day/7 days a week.

1 Home care & community-based services

Home care services allow you to live in your own home or return to your home by helping complete daily tasks that you can't manage alone due to a chronic illness or the need for substantial assistance or supervision.

Adult day care is an option that provides a program of therapeutic and social services in a community group setting through an adult day care center.

Adult day care: medical or non-medical care (or both) provided on a less than 24-hour basis to chronically ill individuals in a licensed facility outside the home, for persons in need of personal services, supervision, protection, or assistance in sustaining daily needs such as eating, bathing, dressing, ambulating, transferring, toileting and taking medications.

Adult day care center: a licensed facility outside the home that provides medical and non-medical care (or both) to chronically ill persons in need of personal services, supervision, protection, or assistance in sustaining daily needs such as eating, bathing, dressing, ambulating, transferring, toileting and taking medications.

2 Facility care services

Facility care services include residential care facilities which offer on-site support for the activities of daily living, and nursing facilities which offer more intensive care related to patient supervision, therapies, rehabilitation, and medication.

Facility care services: qualified long term care services provided to you in a nursing facility or residential care facility. Reimbursement for facility care services shall include per diem expenses, as well as the itemized costs of ancillary supplies and daily services, up to the maximum daily benefit amount permitted under this policy.

Residential care facility: a facility licensed as a residential care facility for the elderly or a residential care facility as defined in the Health and Safety Code. Outside of California, eligible providers are facilities that meet applicable licensure standards, if any, and which meet the following criteria:

- provides care and related services sufficient to support needs resulting from impairment in the activities of daily living or cognitive ability;
- provides care and services on a 24-hour basis;
- has a trained and ready-to-respond employee on duty in the facility at all times to provide care and services;
- provides three meals a day and accommodates special dietary needs;
- has agreements to ensure that residents receive the medical services of a physician or nurse in case of an emergency; and
- has appropriate methods and procedures to provide necessary assistance to residents in the management of prescribed medications.

A residential care facility does not include a hospital or a facility for the treatment of alcoholism, alcohol abuse or drug addiction.

Costs of long term care

With medical and technological advances, we are living better, healthier and longer lives. It is because of this longevity that we might need someone to help take care of us later in life. Living a long life has become a reality. Planning for it has become a necessity since long term care is expensive and costs are expected to increase each year.

Preserving your assets

Some people think they'll need less income in retirement because their children are grown, and the mortgage might be paid in full. But they find that in reality, they want or need to spend about as much as they always did - except that now it's on different things, including long term care costs. You've worked hard to build a comfortable life. Preparing now will help protect your assets and give you the peace of mind you deserve.

Effect on family

The physical, financial and emotional burden placed on an unpaid caregiver, often a family member, is something to be seriously considered when determining your long term care plans.

Flexible Payment Options

In addition to a lifetime premium payment duration, EssentialLTC also offers limited duration premium payment options to provide the flexibility to design a plan that works for your financial goals.

10-Year Premium

This option provides that, at the end of the premium payment period if each required premium has been paid, this policy will automatically be renewed for the rest of your life with no further premium payments required. During the premium payment period, premiums will be subject to change.

Single Premium

Funded with a single premium payment after which no additional premiums are due, making the policy fully paid up, noncancelable, and not subject to rate increases.

1035 Exchange

You can use an existing non-qualified tax deferred annuity or life insurance policy. A 1035 Exchange provides a tax-free exchange of both the principal (basis) and tax-deferred gains in a non-qualified tax-deferred annuity and/or life insurance policy to pay for a tax-qualified Long Term Care insurance policy, which can provide tax-free benefits.

If you satisfy the Payment of Benefits Provision under the Policy for Home Care and Community-Based Services, no Elimination Period will be required and benefits will be payable on the first day you are qualified to receive benefits. Days on which Home Care and Community-Based Services benefits are payable will also count toward the satisfaction of the Elimination Period for Facility Care Services.

Home Care and Community-Based Services Waiver of Premium Rider

We will waive the payment of future premiums that become due for the policy and any attached riders once we begin paying benefits for either Facility Care Services or Home Care and Community-Based Services (either insured under joint coverage). The premium will be waived for as long as we continue to pay benefits for Facility Care Services, the Facility Bed Reservation benefit, or Home Care and Community-Based Services under the terms of this policy and any attached riders. The premium will be waived based on the premium mode in effect at the time We begin paying benefits for Facility Care Services or Home Care and Community-Based Services. Premium payments will again become payable on the next renewal date after you are no longer receiving benefits for Facility Care Services or Home Care and Community-Based Services.

Shortened Benefit Period Nonforfeiture Rider

Provides a benefit when the policy remains in force for at least 3 years and lapses due to nonpayment of premium. Coverage will continue, and benefits will be payable until the total benefits payable is equal to the greater of: (a) the total of premiums paid for the policy and all riders; or (b) 30 times the daily benefit in effect on the date of lapse.

Premiums will vary with the choice of benefits selected. Product features may vary by state. To learn more about EssentialLTC's features and details, please speak with your insurance professional. Your application is subject to underwriting and a medical exam may be required to determine insurability.
